Independent Auditors' Report

To the Honorable Members of the Board of Supervisors
County of Greene, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Greene, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greene, Virginia, as of June 30, 2013, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1 to the financial statements, in 2013, the County adopted new accounting guidance, GASB Statement Nos. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resource and Net Position* and 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-9, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Greene, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical information are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information (Continued)

The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2014, on our consideration of the County of Greene, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Greene, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Greene, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2013.

Financial Highlights

Government-wide Financial Statements

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$24,078,175 (net position).
- Our combined long-term obligations decreased \$674,996 during the current fiscal year.

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported expenditures excess of revenues of \$2,186,978 (Exhibit 4) which includes contributions totaling \$11,549,574 to the School Board.

- As of the close of the current fiscal year, the County's funds reported ending fund balances of \$17,446,453, a decrease of \$2,186,979 in comparison with the prior year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

Overview of the Financial Statements (Continued)

The statement of net position presents information on all of the County's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Greene, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Greene, Virginia is financially accountable. Financial information for this component unit is reported separately from the financial information present for the primary government itself.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Greene, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories; governmental funds and fiduciary funds.

Governmental funds - *Governmental funds* are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and in a separate exhibit following the governmental fund statement of revenues, expenditures and changes in fund balances. The County has three major governmental funds - the General Fund, the Debt Service Fund, and the School Capital Projects Fund.

Fiduciary funds - are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund statement can be found on page 14 of this report.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Overview of the Financial Statements (Continued)

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and a schedule of pension funding progress and other supplementary information including the presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$24,078,175 at the close of the most recent fiscal year.

County of Greene, Virginia's Net Position			
	Governmental Activities		
	2013	2012	
Current and other assets	\$ 31,694,154	\$ 33,091,250	
Capital assets	52,492,442	52,016,732	
Total assets	\$ 84,186,596	\$ 85,107,982	
Deferred outflows of resources:			
Deferred amount on refunding	\$ 996,326	\$ -	
Long-term liabilities outstanding	\$ 43,963,236	\$ 43,814,812	
Current liabilities	7,089,677	15,611,096	
Total liabilities	\$ 51,052,913	\$ 59,425,908	
Deferred inflows of resources:			
Unavailable property tax revenue	\$ 10,051,834	\$ -	
Net position:			
Net investment in capital assets	\$ 11,102,109	\$ 11,734,104	
Unrestricted	12,976,066	13,947,970	
Total net position	\$ 24,078,175	\$ 25,682,074	

At the end of the current fiscal year, the County's net investment in capital assets is \$11,102,109.

The County's net position decreased \$1,603,899 during the current fiscal year.

Government-wide Financial Analysis (Continued)

Governmental Activities - Governmental activities decreased the County's net position by \$1,603,899. Key elements of this increase are as follows:

**County of Greene, Virginia's Changes in Net Position
For the Years Ended June 30, 2013 and 2012**

	Governmental Activities	
	2013	2012
Revenues:		
Program revenues:		
Charges for services	\$ 4,036,847	\$ 3,891,179
Operating grants and contributions	3,947,101	3,892,236
Capital grants and contributions	-	40,000
General revenues:		
General property taxes	16,673,523	16,830,631
Other local taxes	4,144,565	3,799,812
Commonwealth of Virginia non-categorical aid	2,805,709	2,889,095
Other general revenues	225,518	265,200
Total revenues	\$ 31,833,263	\$ 31,608,153
Expenses:		
General government administration	\$ 2,980,297	\$ 2,569,601
Judicial administration	857,949	796,212
Public safety	6,446,145	5,925,042
Public works	1,633,036	1,668,381
Health and welfare	3,359,730	3,283,874
Education	13,691,015	10,876,226
Parks, recreation, and cultural	638,132	655,517
Community development	2,003,035	1,896,573
Interest and other fiscal charges	1,827,823	1,714,067
Total expenses	\$ 33,437,162	\$ 29,385,493
Change in net position	\$ (1,603,899)	\$ 2,222,660
Net position, July 1, 2012	25,682,074	23,459,414
Net position, June 30, 2013	\$ 24,078,175	\$ 25,682,074

Government-wide Financial Analysis (Continued)

Other local taxes increased by \$344,753 during the year, due primarily to an increase in local sales tax. All other revenues decreased by a net of \$119,643. The County's contribution to the School Board totaled \$12,839,595 for the year compared to \$10,918,614 in the prior year, an increase of \$1,920,981.

For the most part, increases in expenditures closely paralleled inflation and growth in the demand for services.

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$17,446,453 , a decrease of \$2,186,979 in comparison with the prior year.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were \$1,962,383 and can be briefly summarized as follows:

- \$388,412 in increases for public safety
- \$1,370,197 in increases for capital projects
- \$203,774 in other increases and decreases

Budgeted revenues of the general fund increased \$353,912, including increases of \$260,713 for intergovernmental revenues and \$93,199 of other increases.

Capital Asset and Debt Administration

- Capital assets - The County's investment in capital assets for its governmental operations as of June 30, 2013 totals \$52,492,442 (net of accumulated depreciation - Note 4). This investment in capital assets includes land, buildings and improvements, machinery and equipment and construction in progress.

Additional information on the County's capital assets can be found in the notes of this report.

Long-term obligations - At the end of the current fiscal year, the County had total long-term obligations outstanding of \$47,153,622. Of this amount \$44,252,984 comprises debt backed by the full faith and credit of the County. The County's total obligations decreased \$674,996 during the current fiscal year.

Additional information on the County of Greene, Virginia's long-term debt can be found in Note 5 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County is currently 4.6 percent, which is a decrease from a rate of 5.5 percent a year ago. This compares favorably to the state's average unemployment rate of 5.5 percent and compares favorably to the national average rate of 7.6 percent.
- Residential growth continues to increase and broaden the demand for locally provided services such as schools, emergency service, social services, inspections, law enforcement, parks and recreation, solid waste, and libraries.
- Departments and agencies were held to level funding related to operational expenditures except in those circumstances where increases in expenditures were unavoidable.

All of these factors were considered in preparing the County's budget for the 2013 fiscal year.

The fiscal year 2013 budget increased from \$52,476,202 to \$53,486,183 or \$1,009,981 (2%).

Requests for Information

This financial report is designed to provide a general overview of the County of Greene, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, P.O. Box 358, Stanardsville, Virginia 22973.

Balance Sheet - Governmental Funds
June 30, 2013

	General Fund	Debt Service Fund	School Capital Projects Fund	Total
ASSETS				
Cash and cash equivalents	\$ 17,442,111	\$ 918,499	\$ 55,324	\$ 18,415,934
Receivables (net of allowance for uncollectibles):				
Property taxes	10,657,935	-	-	10,657,935
Accounts receivable	217,965	-	-	217,965
Due from other governmental units	2,402,320	-	-	2,402,320
Total assets	<u>\$ 30,720,331</u>	<u>\$ 918,499</u>	<u>\$ 55,324</u>	<u>\$ 31,694,154</u>
LIABILITIES				
Accounts payable	\$ 647,959	\$ -	\$ -	\$ 647,959
Due to component unit	2,581,955	-	-	2,581,955
Total liabilities	<u>\$ 3,229,914</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,229,914</u>
DEFERRED INFLOWS OF RESOURCES				
Unavailable property tax revenue	\$ 11,017,787	\$ -	\$ -	\$ 11,017,787
FUND BALANCES				
Committed:				
Debt service	\$ -	\$ 918,499	\$ -	\$ 918,499
Capital projects - school facilities upgrades	-	-	55,324	55,324
Unassigned	16,472,630	-	-	16,472,630
Total fund balances	<u>\$ 16,472,630</u>	<u>\$ 918,499</u>	<u>\$ 55,324</u>	<u>\$ 17,446,453</u>
Total liabilities, deferred inflows of resources and fund balances	<u>\$ 30,720,331</u>	<u>\$ 918,499</u>	<u>\$ 55,324</u>	<u>\$ 31,694,154</u>

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

Total fund balances per above \$ 17,446,453

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Land	\$ 3,670,334	
Buildings and improvements	15,509,172	
Infrastructure	18,313,671	
Equipment	709,097	
Construction in progress	14,290,168	52,492,442

Interest on long-term obligations is not accrued in governmental funds, but rather is recognized as an expenditure when due. (669,377)

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay current-period expenditures. Those assets (for example, receivables) are offset by unavailable revenues in the governmental funds and thus are not included in the fund balance. 965,953

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.

Capital leases	\$ (299,709)	
Landfill closure and postclosure liability	(452,717)	
Compensated absences	(609,624)	
General obligation bonds	(10,075,890)	
Premiums on bonds	(1,510,254)	
State literary fund loans	(8,250,000)	
Revenue bonds	(18,960,000)	
Deferred amount on refunding	996,326	
Notes payable	(2,350,829)	
Net OPEB obligation	(28,334)	
Water and sewer bonds (assumed from RSA)	(4,616,265)	(46,157,296)

Net position of General Government Activities \$ 24,078,175

The accompanying notes to financial statements are an integral part of this statement.

Statement of Revenues, Expenditures, and Changes in Fund Balances -
Governmental Funds
For the Year Ended June 30, 2013

	General Fund	Debt Service Fund	School Capital Projects Fund	Total
Revenues:				
General property taxes	\$ 17,202,455	\$ -	\$ -	\$ 17,202,455

Fund balance at end of year	\$ 16,472,630	\$ 918,499	\$ 55,324	\$ 17,446,453

The accompanying notes to financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities - Governmental Funds
For the Year Ended June 30, 2013

		<u>Primary Government Governmental Funds</u>
--	--	--

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	(2,186,979)
---	----	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. Details supporting this adjustment are as follows:

Capital outlay	\$ 3,013,212	
Depreciation expense	<u>(1,513,816)</u>	1,499,396
Transfer of joint tenancy assets from Primary Government to the Component Unit		(1,023,686)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Details of this item consist of the change in deferred taxes.		(528,932)
--	--	-----------

The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. A summary of items supporting this adjustment is as follows:

Principal retired on capital leases	\$ 178,429	
Principal retired on general obligation bonds	768,581	
Principal retired on revenue bonds and premiums	922,354	
Principal retired on water and sewer bonds	316,904	
Principal retired on notes payable	84,464	
Principal retired on state literary fund loans	700,000	
Increase of landfill closure and postclosure liability	(7,568)	
Issuance of long-term obligations	<u>(2,145,648)</u>	817,516

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:

Change in compensated absences	\$ (137,333)	
Change in accrued interest payable	37,947	
Amortization of deferred amount on refunding	(76,641)	
Increase of net OPEB obligation	<u>(5,187)</u>	(181,214)
Change in net position of governmental activities	\$	<u><u>(1,603,899)</u></u>

The accompanying notes to financial statements are an integral part of this statement.

Statement of Fiduciary Net Position - Fiduciary Funds
June 30, 2013

	<u>Agency Fund</u>
ASSETS	
Cash and cash equivalents	\$ <u>40,907</u>
LIABILITIES	
Amounts held for social services clients	\$ <u>40,907</u>

The accompanying notes to financial statements are an integral part of this statement.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements As of June 30, 2013

Note 1—Summary of Significant Accounting Policies:

The County of Greene, Virginia was formed in 1702 and it is governed by an elected five member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include police and volunteer fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Greene, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Financial Statement Presentation

Management's Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

Government-wide and Fund Financial Statements

Government-wide financial statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model governments provide budgetary comparison information in their annual reports, including the requirement to report the government's original budget in addition to the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Greene, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended Component Units:

The County has no blended component units to be included for the fiscal year ended June 30, 2013.

Discretely Presented Component Units:

Greene County School Board

The Greene County School Board operates the elementary and secondary public schools in the County. School Board members are elected by the voters of the County for a term of four years. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools, since the School Board does not have separate taxing powers. The School Board does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2013.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures: (Continued)

Discretely Presented Component Units: (Continued)

Greene County Economic Development Authority:

The Greene County Economic Development Authority was formed by the Greene County Board of Supervisors who appoint all Board members of the Authority. The Authority provides a source of financing for industries locating their facilities in the County. The Board of Supervisors cannot impose its will on the Authority, but since there is a potential financial benefit or burden in the relationship, as evidenced by the contributions from the County to the Authority, the Board of Supervisors is financially accountable for the Authority. Accordingly, the Authority is considered a component unit of the County and is included as a discrete presentation in the County's financial report. Financial statements for the Authority can be obtained from their Administrative Offices in Stanardsville, Virginia.

C. Other Related Organizations

Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

A. General Fund

The Fund accounts for and reports all financial resources not accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for services, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

B. School Capital Projects Fund

A fund that accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

C. Debt Service Fund

A fund that accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt services funds should also be used to report financial resources being accumulated for future debt service. Specifically, this fund includes VRA water and sewer bonds outstanding.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

2. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds (Trust and Agency Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include the Special Welfare Fund. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

3. Component Unit - School Board:

The Greene County School Board reports the following funds:

Governmental Funds:

School Operating Fund - This fund is the primary operating fund of the School Board and accounts for all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from charges for services, appropriations from the County of Greene, and state and federal grants. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes.

School Cafeteria Fund - This fund accounts for the operations of the School Board's food service program. Financing is provided primarily by food and beverage sales and state and federal grants. This fund is considered a non-major fund.

E. Budgets and Budgetary Accounting

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund and the Component Unit - School Board.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

E. Budgets and Budgetary Accounting: (Continued)

7. Appropriations lapse on June 30 for all county units.
8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

For the fiscal year ended June 30, 2013, a budget was not legally adopted for the Debt Service Fund, the School Capital Projects Fund, and the School Cafeteria Fund and, therefore, expenditures exceed appropriations in these funds for the fiscal year.

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

G. Investments

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component unit, are reported at fair value.

H. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as “advances to/from other funds.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$255,962 at June 30, 2013 and is comprised solely of property taxes.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable June 5th and December 5th. The County bills and collects its own property taxes.

I. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County and Component Unit - School Board as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Capital Assets: (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	20-40
Vehicles	5
Police cars	3
Office and computer equipment	5
Buses	12

J. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

K. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the County strives to maintain an unassigned fund balance to be used for unanticipated emergencies of approximately 20% of the actual GAAP basis expenditures and other financing sources and uses.

M. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current services costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension costs as it accrues.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

O. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

P. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is the deferred amount on refunding reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as inflow of resources (revenue) until that time. The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. This also includes uncollected property taxes due prior to June 30. Under the accrual basis, 2nd amounts prepaid on the 2nd half installments are reported as deferred inflows of resources.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

R. Adoption of Accounting Principles

Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, Statement No. 63 of the Governmental Accounting Standards Board

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement, certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position." The net equity reported in the financial statements was not changed as a result of implementing this Statement and no restatement of prior balances is required.

Items Previously Reported as Assets and Liabilities, Statement No. 65 of the Governmental Accounting Standards Board

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The net position was not required to be restated as a result of implementing this Statement.

Note 2—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County and its Component Unit to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Note 2—Deposits and Investments: (Continued)

Credit Risk of Debt Securities

The County does not have a policy regarding credit risk of debt securities. The County's rated debt investments as of June 30, 2013 were rated by Standard & Poor's and the ratings are presented below using the Standard & Poor's rating scale.

County's Rate Debt Investments' Values	
Rated Debt Investments	Fair Quality Ratings
	AAA
State Non-Arbitrage Pool (SNAP)	\$ 56,349
Total	\$ 56,349

Interest Rate Risk

The County does not have a policy regarding interest rate risk.

Investment Maturities (in years)		
Investment Type	Fair Value	Less Than 1 Year
State Non-Arbitrage Pool (SNAP)	\$ 56,349	\$ 56,349
Total	\$ 56,349	\$ 56,349

External Investment Pools

The fair value of the positions in the State Non-Arbitrage Pool (SNAP) is the same as the value of the pool shares. The SNAP is an open-end management investment company registered with the Securities and Exchange Commission (SEC).

Note 3—Due From Other Governmental Units:

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 6—Commitments and Contingencies:

Federal programs in which the County and its component unit participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the provisions of this circular, all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, future disallowances of current grant program expenditures, if any, would be immaterial.

Note 7—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries commercial insurance for all of these risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 8—Litigation:

At June 30, 2013, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

Note 9—Surety Bonds:

Note 10—Defined Benefit Pension Plan:

A. Plan Description

Name of Plan:	Virginia Retirement System (VRS)
Identification of Plan:	Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity:	Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2013 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplies. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 10—Defined Benefit Pension Plan: (Continued)

A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2012-annual-report.pdf> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County's and School Board's non-professional employee contribution rates for the fiscal year ended 2013 were 10.75% and 9.13% of annual covered payroll, respectively.

The School Board's contributions for professional employees were \$1,756,255, \$957,961, and \$586,770 to the teacher cost-sharing pool for the fiscal years ended June 30, 2013, 2012 and 2011, respectively and these contributions represented 11.66%, 6.33%, and 3.93% from 2013, 2012, and 2011, respectively, of current covered payroll.

C. Annual Pension Cost

For fiscal year 2013, the County's annual pension cost of \$518,024 was equal to the County's required and actual contributions.

Three-Year Trend Information for County			
Fiscal Year Ending (1)	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2011	\$ 365,916	100%	\$ -
June 30, 2012	379,987	100%	-
June 30, 2013	518,024	100%	-

(1) Employer contribution only

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 10—Defined Benefit Pension Plan: (Continued)

C. Annual Pension Cost: (Continued)

For fiscal year 2013, the School Board's annual pension cost for the Board's non-professional employees was \$226,534 which was equal to the Board's required and actual contributions.

Three-Year Trend Information for School Board (Non-professional)			
Fiscal Year Ending (1)	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2011	\$ 126,982	100%	\$ -
June 30, 2012	126,647	100%	-
June 30, 2013	226,534	100%	-

(1) Employer contribution only

The FY 2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.75% to 6.20% per year for teachers, and 3.50 to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County and School Board's unfunded actuarial accrued liabilities are being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

D. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the County's plan was 79.86% funded. The actuarial accrued liability for benefits was \$15,659,250, and the actuarial value of assets was \$12,505,277 resulting in an unfunded actuarial accrued liability (UAAL) of \$3,153,973. The covered payroll (annual payroll of active employees covered by the plan) was \$4,586,658 and ratio of the UAAL to the covered payroll was 68.76%.

As of June 30, 2012, the most recent actuarial valuation date, the School Board's plan was 80.55% funded. The actuarial accrued liability for benefits was \$7,308,058, and the actuarial value of assets was \$5,886,457, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,421,601. The covered payroll (annual payroll of active employees covered by the plan) was \$1,692,903, and ratio of the UAAL to the covered payroll was 83.97%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 11—Interfund Balances and Transfers:

Interfund transfers for the year ended June 30, 2013 consisted of the following:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
County:		
General fund	\$ 174,980	\$ -
Debt Service fund	-	174,980
	<u> </u>	<u> </u>
Total County	\$ 174,980	\$ 174,980
	<u> </u>	<u> </u>
Component Unit School Board:		
School Operating Fund	\$ -	\$ 698,852
School Cafeteria Fund	698,852	-
	<u> </u>	<u> </u>
Total Component Unit School Board	\$ 698,852	\$ 698,852
	<u> </u>	<u> </u>

Transfers are used: to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 12—Unearned/Unavailable Revenue:

The following is a summary of unearned revenue for the year ended June 30, 2013.

	<u>Government- wide Statements Governmental Activities</u>	<u>Balance Sheet Governmental Funds</u>
Primary Government:		
General Fund:		
Unavailable property tax revenue:		
Unavailable property tax revenue representing uncollected property tax billings that are not available for the funding of current expenditures	\$ -	\$ 965,953
2nd half assessments due in December 2013	9,146,987	9,146,987
Prepaid property taxes due in December 2013, but paid in advance by the taxpayers	904,847	904,847
Total unavailable revenue	\$ 10,051,834	\$ 11,017,787
	<u> </u>	<u> </u>

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 13—Due to/From Primary Government/Component Units:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
Primary Government - General Fund	\$ -	\$ 2,581,955
Component Unit - School Board	<u>2,581,955</u>	<u>-</u>
Total	<u>\$ 2,581,955</u>	<u>\$ 2,581,955</u>

The purpose of the obligation between the County and School Board is to report the balance of local appropriations unspent at year-end due back to the respective funds.

Note 14—Landfill Closure and Postclosure Care Costs:

The County operates a solid waste landfill in such a manner as to comply with laws and regulations administered by the United States Environmental Protection Agency and Virginia Department of Waste Management. The \$452,717 reported as landfill closure and post closure liability at June 30, 2013, represents \$412,717 for closure and post closure care liability and \$40,000 for underground tank coverage. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County will also demonstrate financial assurance of an additional one million dollars as a result of the statistically significant exceedance of groundwater Protection Standards. The County intends to fund future costs from funds accumulated for this purpose in the General Fund.

The County has demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 15—Other Postemployment Benefits—Health Insurance:

County:

Background

Beginning in fiscal year 2009, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other postemployment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to postemployment health-care and non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the County accrue the cost of the retiree health subsidy and other postemployment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of postemployment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

County: (Continued)

A. Plan Description

In addition to the pension benefits described in Note 10, the County provides postretirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the County with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and have 15 years of service with the County, may elect to remain on the County's insurance plan, at their own cost, until age 65 when they become eligible for Medicare, at which time benefits cease. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

B. Funding Policy

Eligible retirees from the County may elect to remain on the County's health and dental insurance plans, at their expense, until they reach age 65 or become eligible for Medicare. Retirees' spouses may also remain on the County Plan at the retiree's expense.

C. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding, that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year, the County's amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$	6,400
Interest on net OPEB obligation		926
Adjustment to annual required contribution		(1,339)
Annual OPEB cost (expense)	\$	<u>5,987</u>
Contributions made		(800)
Increase in net OPEB obligation	\$	<u>5,187</u>
Net OPEB obligation - beginning of year		23,147
Net OPEB obligation - end of year	\$	<u><u>28,334</u></u>

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

For 2013, the County's expected cash payment of \$800 was \$5,187 less than the OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2011	\$ 6,395	0% \$	19,190
June 30, 2012	4,457	11.22%	23,147
June 30, 2013	5,987	13%	28,334

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011 is as follows:

Actuarial accrued liability (AAL)	\$ 42,500
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	42,500
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	4,425,800
UAAL as a percentage of covered payroll	0.96%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

County: (Continued)

E. Actuarial Methods and Assumptions: (Continued)

In the June 30, 2011, most recent actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5.50 percent after 5 years. Both rates included a 3.00 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five year-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was 30 years.

Cost Method

The projected unit credit method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have nor normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

Interest Assumptions

	<u>Unfunded</u>
Discount rate	4.00%
Health cost trend assumption	6.30% graded to 4.70% over 70 years
Payroll growth	None assumed

School Board:

A. Plan Description

In addition to the pension benefits described in Note 10, the School Board provides postretirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the School Board with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and have 15 years of service with the School Board, may elect to remain on the School Board's insurance plan, at their own cost, until age 65 when they become eligible for Medicare, at which time benefits cease. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)**School Board: (Continued)****B. Funding Policy**

Eligible retirees from the School Board may elect to remain on the School Board's health insurance plan, at their expense, indefinitely. Retirees' spouses and other dependents may also remain on the plan at the retiree's expense.

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table show the components of the annual OPEB cost for the year, the School Board's amount actually contributed to the plan, and changes in the School Board's net OPEB obligation:

Annual required contribution	\$	237,800
Interest on net OPEB obligation		18,058
Adjustment to annual required contribution		(26,107)
Annual OPEB cost (expense)	\$	229,751
Contributions made		(150,200)
Increase in net OPEB obligation	\$	79,551
Net OPEB obligation - beginning of year		451,451
Net OPEB obligation - end of year	\$	531,002

For 2013, the School Board's expected cash payment of \$150,200 was \$79,551 less than the OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2011	\$ 223,415	0% \$	670,430
June 30, 2012	226,506	196.68%	451,451
June 30, 2013	229,751	65%	531,002

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

School Board: (Continued)

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011 is as follows:

Actuarial accrued liability (AAL)	\$	2,225,900
Actuarial value of plan assets		-
Unfunded actuarial accrued liability (UAAL)		2,225,900
Funded ratio (actuarial value of plan assets/AAL)		0%
Covered payroll (active plan members)		17,014,800
UAAL as a percentage of covered payroll		13.08%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and then plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2011, most recent actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5.5 percent after 5 years. Both rates included 3.0 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was 30 years.

Payroll growth	None assumed

Note 16—Other Postemployment Benefits Program-Health Insurance Credit Program:

County:

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 16—Other Postemployment Benefits Program-Health Insurance Credit Program:

County:

A. Plan Description

Localities may elect to provide an additional health insurance credit of \$1 per month for each full year of the retired members' creditable service, not to exceed a maximum monthly credit of \$30. The enhanced credit is available for constitutional officers and their employees, local social services employees, and general registrars and their employees. Whereas the \$1.50 health credit cost is borne by the Commonwealth, the costs of such additional health insurance credit shall be borne by the locality.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 10.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2013 was .09% of annual covered payroll.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2013, the County's contribution of \$4,337 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and 2012 were as follows:

<u>Fiscal Year Ending</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2012	\$ 5,534	100%	-
June 30, 2013	4,337	100%	-

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 16—Other Postemployment Benefits Program-Health Insurance Credit Program: (Continued)

County: (Continued)

D. Funded Status and Funding Progress: (Continued)

The funded status of the plan as of June 30, 2012, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$	95,552
Actuarial value of plan assets		71,132
Unfunded actuarial accrued liability		24,420
Funded ratio (actuarial value of plan assets/AAL)		74.44%
Covered payroll (active plan members)		2,240,838
UAAL as a percentage of covered payroll		1.09%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2012 was 30 years.

The Retiree Health Insurance Credit benefit is based on a member's employer eligibility and his or her years of service. The monthly maximum credit amount cannot exceed the member's actual health insurance premium costs. The actuarial valuation for this plan assumes the maximum credit is payable for each eligible member. Since this benefit is a flat dollar amount multiplied by years of service and the maximum benefit is assumed, no assumption relating to healthcare cost trend rates is needed or applied.

COUNTY OF GREENE, VIRGINIA

Notes to Financial Statements
As of June 30, 2013 (Continued)

Note 16—Other Postemployment Benefits Program-Health Insurance Credit Program: (Continued)

School Board:

Professional Employees - Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.11% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2013 was \$167,191 and equaled the required contribution for the year.

Note 17—Upcoming Pronouncements:

The GASB has issued Statement No. 68, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27." This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014 (fiscal year ended June 30, 2015). The County has not determined the impact of this pronouncement on its financial statements.

Reconciliation of Schedule of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities - Discretely Presented Component Unit - School Board
For the Year Ended June 30, 2013

		<u>Component Unit School Board</u>
Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	46,681
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which depreciation exceeded capital outlays in the current period is computed as follows:		
Capital additions	\$ 422,582	
Depreciation expense	<u>(643,783)</u>	(221,201)
The issuance of capital leases provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. A summary of items supporting this adjustment is as follows:		
Principal retired on capital lease obligations	\$ 323,099	
Issuance of long-term obligations	(375,352)	
Principal retired on early retirement obligations	<u>42,113</u>	(10,140)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount reflects the changes in compensated absences, net OPEB obligation, and accrued interest payable.		
Change in compensated absences	\$ (16,655)	
Change in net OPEB obligation	(79,551)	
Change in accrued interest payable	<u>9,628</u>	(86,578)
Transfer of joint tenancy assets from Primary Government to the Component Unit		<u>1,023,686</u>
Change in net position of governmental activities	\$	<u>752,448</u>

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of
The Board of Supervisors
County of Greene, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greene, Virginia as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County of Greene, Virginia's basic financial statements, and have issued our report dated January 3, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Greene, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Greene, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Greene, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management, or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Greene, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

To the Honorable Members of
The Board of Supervisors
County of Greene, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Greene, Virginia's compliance with the types of compliance requirements described *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Greene, Virginia's major federal programs for the year ended June 30, 2013. County of Greene, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Greene, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Greene Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Greene, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Greene, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the County of Greene, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Greene, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Greene, Virginia's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

COUNTY OF GREENE, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2013

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Greene, Virginia under programs of the federal government for the year ended June 30, 2013. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of the County of Greene, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Greene, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance in the amount of \$71,922 is reported in the Schedule at the fair market value of the commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General Fund	\$ 1,026,205
Less Payment in lieu of taxes	<u>(39,615)</u>
Total primary government	<u>\$ 986,590</u>

Component Unit School Board:

School Operating Fund	\$ 2,111,361
Less BAB subsidy	<u>(125,452)</u>
Total component unit school board	<u>\$ 1,985,909</u>

Total federal expenditures per basic financial statements	<u>\$ 2,972,499</u>
---	---------------------

Total federal expenditures per the Schedule of Expenditures of Federal Awards	<u><u>\$ 2,972,499</u></u>
---	----------------------------
